

IMPORTANT NOTICE FOR LEAGUE MEMBERS:

We have been made aware of an anti-LGBTQ+ group on 4Chan targeting Pride month activities with a hate campaign they're calling Operation Pridefall. Plans are centered mainly on trolling on social media, especially smaller groups or individuals, though some larger organizations may also be targeted. Please take care of yourselves through this time and take a look at some proactive steps you can take:

- Change your passwords, especially Twitter
- Carefully review any new group member requests or followers on social media – noting we believe this campaign was launched around 5/28 so go back a few days
- As ever, do not share any personally identifiable info on social media, eg location, phone number, meeting arrangements etc
- If you are targeted:
 - Share information with your network, contact HRC or ACLU (or law enforcement if you feel personally threatened)
 - Seek help from your support network or a support group if you were left feeling uncomfortable or triggered, or your local LEAGUE chapter using the Contact Form on this site
